Spicul de Aur 

*It's a common knowledge that
vodka is made of spirit and water.*

Spiricul de Aur 

The fact that a good spirit is made out of wheat, is known to the majority of people.

Spicul de Aur

The fact that a good vodka should pass several stages of purification is known to many people.

But the fact that besides good spirit and good water vodka has got many other natural ingredients improving its taste, is known only to specialists.

Spicul de Aur 

'Enteh' JSC - we try to make this fact well-known, offering a new series of vodka under the trademark "Spicul de Aur".

Spicul de Aur 

All kinds of Spicul de Aur™ vodka are made of high quality wheat spirit "Lux" and drinking water purified according to a special technology of indirect osmosis – with the subsequent processing by the activated coal and careful filtration through quartz sand, that reliably provides a high degree of clearing of the drink.

Spicul de Aur

Besides it the product passes platinum filtration through a special triple filter in which platinum in the form of thin threads is inserted into the so-called cartridge filters. It has a delicate vodka aroma, crystal purity and anti-hangover effect. It is an environmentally-pure product.

Spicul de Aur 

The main thing is that if you compare the quality of products of Spicul de Aur™ with other kinds of vodka of the same price category you will see that we guarantee a pleasant and a healthy feast, not imposing extra expenses on you.

Products in the production process passes the following elements of purification:

The alcohol used in the production, is cleaned by:

- 1. Distillation column*
- 2. Epuration column*
- 3. Fractionating column*

Ingredients: softened water, pure rectified spirit distilled from selected wheat, sugar, extract of: walnut, wormwood, chamomile, mint, Strawberry, rose hips, propolis, sage, lavender, etc.

Spicul de Aur

Alcoholic desert beverage
"Gretchen Schnapps" with flavour of:
Peach / almond

The dessert flavored alcoholic drink "Gretchen Schnapps" is produced with aromas of peach, cranberry, black currant and almond. Usually it is a flavored drink. In each case the composition and manufacturing processes are unique, that is why there are such sayings that you will not find two same products of this kind. Schnapps should be served in very little portions, it lacks the syrup taste characteristic to tinctures and the sweetness of liqueurs and the alcohol taste is hardly distinguished. This drink can become an alternative to low alcohol cocktails and tinctures.

Alcohol content: 24 %

Bottle capacity: 0.5L

Ingredients: softened water, pure rectified spirit distilled from selected wheat, sugar, citric acid, juice concentrate
